MARIOS SIRTMATSIS

COMPUTER SCIENCE STUDENT AT ULM UNIVERSITY

Edelweissweg 22, 89269 Voehringen, Germany

+1 (862) 372-3486| marios.sirtmatsis@hotmail.com | linkedin.com/in/msirtmatsis | github.com/masirt

EDUCATION

University of Ulm, Faculty of Engineering, Computer Science and Psychology — Ulm, Germany
M.Sc., Computer Science — *Oct. 2021 – (Aug. 2023)*

- Currently studying a semester abroad at the University of Massachusetts Amherst

UMass Amherst, College for Information and Computer Sciences — Amherst, MA, USA
Graduate Exchange Student, Computer Science — *Sep. 2021 – (Dec. 2021)*

- Courses: Reinforcement Learning, Machine Learning, Systems for Data Science

University of Ulm, Faculty of Engineering, Computer Science and Psychology — Ulm, Germany
B.Sc., Computer Science — *Oct. 2018 – Aug. 2021*

- Grade: 1.2
- Relevant Coursework: Deep Learning for Graphics and Visualization, Graph Analytics and Deep Learning, Information Systems, Algorithms and Data Structures

RELEVANT PROFESSIONAL EXPERIENCE

University of Ulm, Institute for Theoretical Computer Science — Ulm, Germany
Tutor — *Oct. 2020 – Jul. 2021*

- Collaborated with 9+ other tutors and a teaching assistant to give tutorials, grade coursework and answer questions of more than 250 students
- Worked as a tutor for the courses *Algorithms and Data Structures* as well as *Interactive Systems Programming*

Daimler TSS GmbH, Information Security Team — Ulm, Germany
Working Student in Information Security — *Jul. 2019 – Jun. 2020*

- Developed a dashboard for automated evaluation of asset management data with **Python** (**dash** and **pandas**)
- Organized a cyber security day with more than 200 participants
- Led the integration of a security awareness measure (OWASP card game) by having game sessions with three software development teams

SKILLS

Programming Languages
Python, Java, SQL, TypeScript, JavaScript, HTML, CSS, Haskell, Prolog, CHR

Tools & Frameworks
TensorFlow, Keras, PyTorch, Python libraries (e.g., pandas, numpy, scikit-learn, matplotlib), JavaScript Frameworks (e.g., D3.js, Vue.js), Docker, Git, Jira, Confluence, MS Office

Other technologies
Machine Learning, Deep Learning, Reinforcement Learning, Spark, MapReduce, Agile Methodologies, Algorithms and Data Structures, Computer Networking, Databases, Linux/Unix, Statistics

Languages
German (native speaker), Greek (native speaker), English (C1), French (B1/B2)

Soft Skills
Critical Thinking, Leadership, Emotional Intelligence, Growth Mindset

PROJECTS

University of Ulm, Institute for Databases and Information Systems — Ulm, Germany
Shortest Path Distance Approximation (SPDA) using Deep Learning Techniques — *Apr. 2021 – Aug. 2021*

- Improved SPDA on multiple graph datasets by implementing a sophisticated Neural Network architecture using **Keras** and **scikit-learn**
- Compared 3 different graph embeddings and Graph Convolutional Neural Networks on the task of SPDA and proposed SPDA as a new evaluation metric for structural preserve of graph embeddings

University of Ulm, Visual Computing Group — Ulm, Germany
Visualizing Deep Reinforcement Learning — *Feb. 2021 – Aug. 2021*

- Designed and implemented a visualization tool for Deep Reinforcement learning to increase interpretability of Deep Reinforcement Learning algorithms with **Vue.js** and **D3.js** for frontend development and **Python** for backend development as part of a bachelor thesis
